23. Problem: (use additional Sheets if necessary)
Baselined versions of Legato NetWorker have reached end-of-life. NetWorker needs to be upgraded at the DAACs and SMC in order to ensure we can obtain bug fixes as needed.

24. Proposed Solution: (use additional sheets if necessary)
Deliver Legato NetWorker 7.1.2 to the DAACs and SMC, and install it on Sun, SGI, Linux, and Windows machines as described in 914-TDA-288, Legato NetWorker 7.1.2 (Sun, SGI, Linux, and Windows) Maintenance Upgrade for the EOSDIS Core System (ECS), Release Notes, which is attached.

See additional sheet for files to deliver. No new license keys are required.

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
Legato will not provide bug fixes for ECS' baselined versions of NetWorker beyond September 2004. Unless this upgrade is installed, ECS sites will face increased risk of problems performing system backups and restores, especially after new operating system software patches are applied.

27. Justification for Emergency (If Block 15 is "Emergency"):
None
